## Testimonials

Les was absolutely fantastic in his work. This includes the photos and the level of communication we received from him. In fact, we also enlisted Les' services for our engagement party on the day before our ceremony and were thoroughly impressed by his friendly and professional nature and the quality of the work. He made us all feel extremely comfortable and was very patient with our requirements. We would definitely recommend Les and would go to him for future requirements. Thanks,

### More

"I would like to thank Les and his team for the fantastic job they did on my food photography. The job was finished in a timely manner and the end product exceeded my expectations. Thanks again for all of your help with my project" Kelly

### More

"Les has presented a solution to my problem to which I am pleased".

### More

"Les Photography was about the last to quote on my work, and I accepted him not only because of his price but also because of the creative way in which he has approached my needs. His work is superb, with just the right touch of crispness and blurred background I want for my products. He's good! ++++++" "

### More

"From emails, phone calls to photo shoot, Les Dainter has handled the entire process very professionally. To simply say that he is extremely well prepared and is equipped with an extensive range of photographic equipments is probably understated. Les intuitively know how to capture the very essence of his subjects".

## About me

I'm a photographer, not just a wedding photographer but a professional involved in all aspects of the industry from portraits of families and individuals to corporate head shots and then into fashion and glamour. And it doesn't stop there. Using my education with two university degrees and extensive background in photography, I have become a leader in image making, and this is where you benefit.

## What I do

Quite simply, I create images that represent what you are, what you want or how your product will look in a brochure or on the web. How do I do this? Of course state of the art equipment and advanced technology, but attached to this is creativity, imagination, and technical skills in lighting, composure and the ability to understand your needs in every way.

## What you get

Weddings... well a free engagement shoot, free enhanced images on DVD, proof sheet and simply outstanding customer service. Portraits, commercial, food, real estate, I offer a full guarantee. If you are not satisfied with the results then I'll do the job again free. As for functions and events. I'm the official photographer for an organisation that places me in front of high level profiles such as Premier NSW, Opposition Leader NSW, Visiting dignitaries and government officials from China
